## AVVISO AGLI AZIONISTI

---

Lussemburgo, 24 novembre 2023

Si informano gli azionisti del Fondo che il Consiglio di Amministrazione della Società (il "**Consiglio**") ha deliberato la modifica della politica di investimento di **AILIS INVESCO INCOME** (il "**Comparto**") nel prospetto della Società (il "**Prospetto**").

Il Comparto aveva un periodo predefinito di cinque (5) anni che terminava il 31 maggio 2023 (il "Periodo di investimento principale"). Come indicato nell'attuale Prospetto informativo e spiegato in un avviso pubblicato il 30 maggio 2023, alla fine del Periodo di investimento principale, veniva effettuato un investimento progressivo volto a consolidare la performance raggiunta alla scadenza di tale termine.

Il Prospetto prevede, inoltre, che la politica di investimento del Comparto possa essere riformulata nel migliore interesse degli azionisti.

Come anticipato nell'avviso pubblicato il 30 maggio 2023, il Consiglio ha deciso di modificare la politica d'investimento del Comparto e di cambiare la sua categorizzazione SFDR da articolo 6 a articolo 8 in conformità al Regolamento (UE) 2019/2088 sulle informazioni relative alla sostenibilità nel settore dei servizi finanziari ("**SFDR**") a partire dall' **8 gennaio 2024** (la "**Data di efficacia**").

A partire dalla Data di efficacia, la politica d'investimento del Comparto sarà modificata come indicato di seguito (le principali differenze sono evidenziate in grassetto).

In linea con la nuova politica d'investimento, il metodo di calcolo dell'esposizione totale del Comparto e il suo livello medio di leva finanziaria attesa rimarranno invariati.

A partire dalla Data di efficacia, le commissioni saranno modificate da un massimo del 1.30% del patrimonio netto del Comparto durante in periodo di investimento principale (0.80% durante il periodo di post investimento) ad un massimo dell'1,70%. La commissione di collocamento applicata durante il Periodo di Investimento Principale non sarà più in vigore a causa della scadenza del suo termine e del cambiamento della politica di investimento.

<p>Absolute VaR Approach</p> <p>The Sub-fund will regularly monitor its leverage and the average level of leverage is expected to be approximately <b>250%</b>. The Sub-fund's leverage may increase to higher levels, for example, at times when the Investment Manager deems it most appropriate to use financial derivative instruments to alter the Sub-fund's interest rate sensitivity. The leverage figure is calculated as the sum of the notionals of the derivatives used as required by the regulations. The notional value of the investments varies significantly from their market value which is why the leverage limits may be high. These leverage limits do not take into account any netting and hedging arrangements that the Sub-fund may have in place at any time even though these netting and hedging arrangements are used for risk reduction purposes. The methodology used to calculate the leverage is the sum of the absolute value of the notionals.</p>	<p>Absolute VaR Approach</p> <p>The Sub-fund will regularly monitor its leverage and the average level of leverage is expected to be approximately <b>150%</b>.
