INTERFUND SICAV

NOTES TO THE FINANCIAL STATEMENTS AT JUNE 30, 2013

1. GENERAL INFORMATION

INTERFUND SICAV (the "fund") is a "Société d'Investissement à Capital Variable" ("SICAV") governed by Part I of the Luxembourg Law of December 17, 2010 on undertakings for collective investment.

The fund is allowed to distribute its shares in all EU countries, under the condition that its "Prospectus" is authorized by each local Supervising Authority.

As of January 14, 2013, the sub-fund Interfund Global changed its investment policy and was renamed Interfund Equity USA Advantage.

The unit class AH, characterized by coverage of risks related to the fluctuations of exchange rates, is available for investors in the sub-fund Interfund Bond US Plus since June 12, 2013.

As of June 30, 2013, the number of sub-funds in the fund is thirty-six, of which twenty three are active.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared using accounting principles generally accepted for such investment companies in Luxembourg, which include the following significant accounting policies:

a) Foreign currency translation

Assets and liabilities denominated in currencies other than EURO are translated at the exchange rate prevailing on the closing date. Foreign currency trades are translated at the exchange rate prevailing at the transaction date. Income and expenses expressed in currencies other than the accounting currency of the sub-fund are converted into that currency at the exchange rates prevailing on the transaction date. Realized and unrealized foreign currency gains or losses are included in the result of the year.

b) Cost of securities sold

The cost of securities sold is determined on a weighted average basis. This cost includes the purchase price and the brokers' fees.

c) Valuation of investments

Quoted securities and options as well as securities traded on other organized markets are valued at the latest available market prices as of the net asset value date. Other securities are valued at their estimated market prices as determined by the Board of Directors of the Company.

Units/shares of Undertakings for Collective Investment, either listed or not, are valued on the basis of their last available net asset value.

d) Income recognition

Interest income is recorded on an accrual basis and dividend income is recorded on a dividend ex-date basis, net of withholding tax if any.

e) Forward foreign exchange contracts

Forward foreign exchange contracts are valued at the forward rates for the remaining period from valuation date to maturity date.

f) Future contracts

Initial margin, consisting of cash that is segregated upon entering into future contracts, is recorded in the caption "initial margin on future contracts" in the statement of net assets.

The daily gain or loss on open future contracts is calculated as the difference between the price valued as of the day before's closing date and the closing price available as of the net asset value date. This daily gain or loss is recorded in cash at bank on a 72 hours basis.

Gains and losses on future contracts have been recorded in the caption "Net realized gains (losses) on future contracts".

g) Securities lending

The fund may lend its portfolio securities to specialised banks, credit institutions and other financial institutions of high standing. The lending of securities is made for periods not exceeding 30 days. This limitation is not applicable if the fund has the right to request, at any moment, the termination of the contract and the return of securities.

Securities lending is guaranteed by government securities and other bonds with a minimum rating of upper medium grade. Any transaction expenses in connection with such loans are charged to the borrowers.

h) Swap contracts

Swap contracts are valued on the basis of their market value, under the responsibility of the Board of Directors of the Company. Swap contracts may be entered into in order to gain long and short exposure on listed securities or indices. The fund may also enter into Interest Rate Swaps and Credit Default Swaps.

i) Combined Statement

The fund's Combined Statement of Net Assets and the Combined Statement of Operations and Changes in Net Assets are the sum of the statements of each sub-fund as at June 30, 2013.

3. NET ASSET VALUE PER SHARE

The net asset value per share is computed daily by dividing the net assets by the number of shares outstanding.

4. TAXES

According to Luxembourg law, the fund is subject to a special tax status. The fund is not subject to any income tax but is liable to an annual subscription tax at a rate of 0.05% of its total net assets payable quarterly and assessed on the last day of each quarter.

Until June 30, 2011, Italian law taxed the fund on the yearly result from operations, attributed to the shares distributed in Italy, at a rate of 12.5%. In case of a negative yearly result from operations, this law allowed the recording of an Italian tax credit that corresponded to 12.5% of that result.

Since January 1, 2004, amounts representing Italian tax credit and debit, as said above, have been exchanged between the different sub-funds of the fund in order to keep the level of the tax on the Total Net Assets of the fund balanced between sub-funds. As a compensation, interest has been recognized and paid or received between sub-funds on the basis of the balance payable or receivable at the end of each month and are recorded in the caption "Interest on others" in the statement of operations.

5. REDEMPTIONS OF SHARES

The fund's shares are redeemable daily at the current net asset value per share. According to the fund's prospectus, the redemption of shares can be temporarily suspended.

During the period ended June 30, 2013, there was no such suspension.

The Investment Manager has appointed the following sub-investment managers:

- Morgan Stanley Investment Management Ltd for the sub-fund Interfund Equity USA Advantage,
- Fideuram Investimenti SGR S.p.A. for the sub-funds Interfund Equity Italy, Interfund System Evolution and Interfund System 100,
- GLG Partners LP for the sub-funds Interfund Equity USA, Interfund Global Convertibles,

A performance fee is calculated in Interfund Equity USA, Interfund Equity Europe, Interfund Equity Global Emerging Markets and Interfund Global Convertibles equal to 20% of the aggregate appreciation in value over the amount of the Benchmark Return (MSCI USA Index for Interfund Equity USA Class A – MSCI USA Index (Euro Hedged) for Interfund Equity USA Class AH – MSCI Pan-Euro Index for Interfund Equity Europe – MSCI Emerging Markets Free Index for Interfund Equity Global Emerging Markets – UBS Global Focus Convertible Bond EUR Hedged Index for Interfund Global Convertibles). Performance fees are accrued at each valuation point and calculated at the last Business Day in the six month period ending on June 30 and the last Business Day in the six month period ending on December 31 in each year (each a "Calculation Date"); payable ("Payment Date") immediately after the Calculation Date.

For the purposes of calculating the performance fees, a performance period shall generally commence on the Business Day following the immediately preceding Calculation Date and end on the Calculation Date as at which the performance fee is to be calculated.

If, however, shares were issued subsequent to the preceding Calculation Date, the performance period for those shares shall commence on the date of issue of those shares and end on the Calculation Date as at which the performance fee is to be calculated. Finally, if shares were redeemed between the immediately preceding Calculation Date and the Calculation Date as at which the performance fee is to be calculated, the performance period for those shares shall commence on the Business Day following the immediately preceding Calculation Date and end on the redemption date of those shares. In this case, if a performance fee is due, it will be crystallised at the date of redemption even if it will be paid only at the Payment Date.

The appreciation in value of any share shall be calculated as at each Calculation Date by deducting the "Benchmark Return" for that share from the "Closing NAV" of that share for that performance period.

The "Closing NAV" shall be the Net Asset Value per share at the Calculation Date as at which the calculation is being made before accrual of the performance fee and taxation, except that in respect of an investor who redeems shares during that performance period, the Closing NAV shall be the Net Asset Value per share at the date of redemption, before accrual of the performance fee and taxation.

The Benchmark Return applicable to each share shall be calculated from the first day after the last performance fee Calculation Date at which a performance fee was payable, or if no performance fee has been paid, then from issue date.

The Benchmark Return will be the notional return which would have accrued had either (i) a sum equal in value to the Net Asset Value corresponding to the share at the preceding Calculation Date at which the performance fee was payable, been invested in the applicable "Benchmark Index" from that Calculation Date to the current Calculation Date or (ii) if no performance fee has been paid, then a sum equal to the amount of the Net Asset Value on issue date, having been invested in the applicable "Benchmark Index" from issue date to the current Calculation Date.

In the event that the performance of a share does not exceed that of the Benchmark Return for a performance period, no performance fee shall be payable in respect of that flow until any underperformance in respect of the Benchmark Return has been recovered ("High Water Condition" relative to the Benchmark).

The foregoing performance fee methodology aims to reduce the potential inequalities of performance fees by calculating a fee that is based on any single share's returns rather than of the relevant sub-fund as a whole. This calculation involves the tracking of the relevant sub-fund's price movement with reference to all the shares.

Whilst the performance fee methodology employed by the fund seeks to eliminate potential inequalities between investors arising from the calculation of performance fees there may be occasions where an investor pays performance fees for which the shareholder has gained no benefit.
